GILLOTT'S

FUNERAL DIRECTORS

S E R V I N G F A M I L I E S F O R G E N E R A T I O N S

Gillotts Funeral Directors is owned and managed by The Eastwood Funeral Partnership, which consists of Barry and Elaine Hutsby, Joanne Hutsby and Anthony Topley, who between them have more than a century of experience in the Funeral profession.

We pride ourselves on providing a caring and professional service, offering choice, and treating the families we serve in a fair and honest manner. We believe that providing information about the choices available, and the costs involved, is an important part of this.

This document contains information about the services and products we provide, including our lower cost options, and our extensive coffin and casket range and the many options available for cremated remains.

We also provide details of the Third Party Fee element of the funeral costs. These are charges levied by Crematoria, Cemeteries, Churches and Officiants amongst others for the services they provide as part of the overall funeral.

At the back of this brochure is a funeral cost calculator to allow you to begin calculating for yourself the likely cost of the funeral if you wish to. If you have any questions, please do not hesitate to contact us.

The charges in this brochure relating to the services and goods we provide are valid until 31st December 2018.

OUR LEVELS OF SERVICE

Bespoke Funeral

This is the level of service we have been providing to families for generations. We will sit down with the family, discuss their requirements, offer a full choice of options, and then provide an estimate based on their needs. The funeral service planned can be anything from a simple, traditional send-off to an elaborate celebration. Example cost is based on a Hearse only funeral with three bearers and an Abbey coffin.

From £2,170 plus third party fees

Limited Funeral Package

As the name suggests, this provides a level of service which enables a simple funeral to be held on a limited budget. This is achieved by restricting the options available and arranging the date and time of the funeral at our convenience. This package includes a simple coffin, and provision of a Hearse only which will go directly from our premises to the place of service. Please see page 5 for full details.

£1,775 plus third party fees

Direct Cremation

Where no funeral service is required, we can provide a service which consists of the transfer of the deceased into our care and retention on our premises, provision of a coffin suitable for cremation, transfer to Amber Valley Crematorium for an unattended cremation, and collection of cremated remains and retention on our premises prior to collection. Please see page 4 for full details.

£1,195 including third party fees.

Please see the chart below and overleaf for an illustration of what each of the above options includes.

It may be that you wish to include one or more Limousines, a Service in Church, or the interment of cremated remains in a Cemetery or Churchyard. If you wish we can also produce order of service sheets, place an announcement on our website and in local or national newspapers, collect and administer donations in memory of your loved one, and provide many other services. You also have a choice of our full coffin range, and the option to select an alternative style hearse if you wish.

Shown below is an illustration of our core charges for a Bespoke Funeral, and some of the additional charges which may apply depending on the choices you make. Once you have discussed your wishes with your funeral arranger, they will go through these charges with you in more detail and give you a written estimate. For a more detailed breakdown of our Core Charges please see page 32.

Third Party Fees

In addition to our charges, your written estimate will include the fees that are payable to Third Parties, such as the Crematorium, Cemetery or Churchyard and Ministers and Celebrants, along with charges for items such as Alternative Funeral Vehicles and Newspaper Notices. These charges are quoted at the costs known to us at the time of making the funeral arrangements. Any subsequent adjustment or change to these charges by the third parties involved is beyond our control and will be reflected on the final account. We request the payment of these Third Party fees prior to the funeral.

Traditional Funeral Vehicles

Our Jaguar Fleet

We are proud of our fleet of modern Jaguar funeral vehicles, which we believe provide our clients with the best in dignity, comfort and reliability.

The charges for use of our funeral vehicles are included within the Core Charges information on the previous page.

The Vehicle charges are based on a funeral provided using our own vehicles with a total inclusive mileage of 30 miles, and taking up to 2 ½ hours to complete from the time the Cortege leaves our premises to the time of return of all vehicles and staff to our premises. Additional mileage and/or time charges will be quoted dependent upon the requirements involved.

Other Funeral Fleets

We are occasionally asked to provide traditional funeral vehicles in a different colour or make to our own vehicles, and our only option is to hire vehicles from other Funeral Directors whose fleets match our client's requirements.

The cost and availability will be confirmed when we have been able to source suitable vehicles. The cost of the provision of these vehicles will be shown as a Third Party Fee on our Estimate, and will need to be paid prior to the funeral.

Personalised Funeral Vehicles

There are a range of alternative vehicles available to make the funeral even more personal. If you are interested in using any of these vehicles please let us know as soon as possible, and before the funeral date and time is arranged. Once the date and time has been arranged, we cannot guarantee availability.

Please note also that there are limits to the size of coffin that some of these vehicles can accommodate – particularly the Horse-drawn and Morris Minor Hearses. If difficulties were to arise we would discuss them with you before proceeding. As space is limited, it is usually necessary to use our motor hearse or an additional vehicle to transport floral tributes and/or funeral staff.

The cost of the hire of these vehicles will be included on the funeral account as a third party fee, and we request that this is paid a minimum of two working days prior to the day of the funeral. Please note that the charges quoted are those levied by our usual suppliers and may be subject to change.

Further options for personalising the Funeral

Dove release

Releasing doves at a graveside or following a Crematorium service symbolises peace and hope.

Please note that doves cannot be released in inclement weather conditions such as heavy fog, rain or snow.

The Dove Release staff will read a poem of your choice and then either assist family members to release the doves, or perform the release themselves.

Single Bird Release £120 approx

Trinity Release £180 approx

Single bird release, followed by three doves representing the Holy Trinity. For other quantities please ask.

Piper

A piper can provide a dramatic and moving tribute at a Funeral. The piper could lead the funeral cortege from the family home, or up to the Church or Crematorium entrance.

The emotive sound of the bagpipes playing traditional songs can uplift the spirit and touch the heart. Seen over the ages at state and military funerals and remembrance days, pipers can be a fitting part of a funeral for a Scottish or Irish national, or for anyone who is fond of bagpipe music.

The Cost is approximately £150, depending on the individual who is available on the day, the length of time they are required, and the distance they would need to travel.

New Orleans Style Jazz Band

A Jazz Band brings the flavour of New Orleans to a special occasion. Available to lead a funeral procession to Church or the Crematorium, to play outside of the family home prior to the departure of the cortege, and also if required at the gathering afterwards.

Costs depend on which band is selected – the two local options are the Oriole Jazz Band and the 4-piece Fabulous Tea Bag Boys. The number of band members involved and the length of time required. Cost starts at approximately £450.

Paying for the Funeral

As part of the discussions with our client we will discuss how the cost of the funeral is to be met, and will give an estimate of the cost of the funeral. We require payment for the Direct Cremation Package at the time of arrangement, and for the Limited Funeral Packages at least 2 days prior to the funeral.

For Bespoke funerals, request that the estimated Third Party Fees – e.g. crematorium, cemetery, church and officiant's fees, plus the costs of any alternative vehicles requested, are paid two days prior to the funeral. The Funeral Account is then prepared approximately 7 days after completion of our services and sent to the person named as our client on the estimate. If you would like the account sent sooner than this, or a copy sent to someone other than our client, then please let us know.

In addition, we reserve the right to require additional or full payment in advance of the funeral day in certain circumstances, which include but are not limited to the following:

- Repatriations from the UK mainland
- Where our named client resides outside of the U.K.
- Exhumation of the deceased or cremated remains.
- Where we have been informed that neither the deceased's estate or our client have the necessary funds to cover the estimated funeral costs.
- When a DWP claim is being made, we require payment of the expected shortfall between the estimated costs and the likely amount received from the Social Fund, subject to satisfactory evidence that our client is eligible to receive a payment from the Social Fund.

Methods of Payment accepted.

- Cash payments are accepted during office hours either at our premises or by collection within 5 miles of our premises.
- Payment by cheque at our premises or by post. Please make your cheque payable to Gillotts Funeral Directors.
- By BACS - **Account name:** The Eastwood Funeral Partnership **Sort Code:** 20-63-28 **Account No:** 20933279. Please quote the deceased's surname and initials so that we can identify your payment.
- By most debit and credit cards either at our premises or over the telephone during office hours.

Payment by instalments

We recognise that funds are not always immediately available to pay for a funeral. We work with Braemar Finance to offer the ability to pay for all or part of the funeral costs by instalments over terms of between 1 and 5 years, with a typical APR of 14.9%. The process begins with a simple online application at the time the funeral is arranged. During office hours, a decision will be received from Braemar in around 20 minutes.

For more information or to calculate the monthly costs please contact us or ask your funeral arranger.

Our Payment Terms

Should the account remain unpaid 21 days after the date the account was due to be paid, the business may at its discretion:

- Add interest to the account at the rate of 12% per annum, payable from the date of the account until the payment, including any such interest accrued, is received in full.
- Place the debt with a collection agency or a solicitor to recover payment, adding all fees and charges incurred in the process to the outstanding balance.
- Prepare the matter for action by the courts to recover through the courts all amounts outstanding, adding all legal costs, court fees, filing fees, and any associated costs of such action to the outstanding balance.

Sourcing our coffins and caskets

We are proud of our partnership with established local coffin manufacturers Steve Soult Ltd, based in Kirkby-in-Ashfield, Nottinghamshire, who produce our veneered and solid timber coffins and caskets.

We have chosen this company – the only English coffin manufacturer to have achieved membership of the prestigious Guild of Master Craftsmen - because their mission to provide Uncompromising Quality dovetails perfectly with our aim to provide the highest levels of care and attention for the families we serve.

A number of the coffins in our selection have been specifically designed by us in partnership with the team at Steve Soult Ltd, bringing together our experience of the needs of families with their expertise in creating quality products.

Our close relationship and proximity enables us to provide a highly responsive service. Typically, when our client has made their decision, the coffin or casket will be handcrafted to our exact specifications. When it is completed, the chosen interior and exterior details are added at our premises.

We believe that this offers a number of advantages for the families we serve. Our bespoke range gives families the widest range of options to personalise the design and finish of the coffin, but in fact many of our designs can be adapted on request. This in conjunction with our close working relationship with the team at Steve Soult Ltd means that we are confident of the highest quality of finish of each coffin arriving at our premises.

Caring for the environment

Whilst every funeral will have an impact on the environment, we believe that there are many small but important ways that this can be managed. By choosing a company who manufactures only 9 miles from our premises we have minimised the fuel footprint of our traditional coffin range.

Steve Soult Ltd have an ethical sourcing policy which ensures that wherever possible all of their timber suppliers are accredited by the Forest Stewardship Commission and high quality, fast-growing European timber is chosen. In addition, investment in wood waste technology has reduced the waste footprint of their entire manufacturing process by 85% whilst also lowering fuel consumption.

We also work with other suppliers whose products are shown in this brochure, who provide environmentally conscious alternatives in a range of materials.
